Windows taskbar showing the Start button, taskbar icons for "Classwork for 4th S..." and "SQL Commands - G...", and system tray icons for volume, network, battery, and language (ENG). The date and time are 12:57 on 02-04-2021.

The screenshot displays the Oracle Database Express Edition web interface. At the top, there's a navigation bar with "Home", "Logout", and "Help" links. Below it, the "User SYSTEM" and "Home > SQL > SQL Commands" breadcrumb are visible. The main area contains a "SQL Commands" window with a text editor where the following SQL statement is entered:

```
select * from st_atha
```

Below the editor, there's a "Results" section with tabs for "Results", "Explain", "Describe", "Saved SQL", and "History". The "Results" tab is active, showing a table with columns "Time", "SQL", and "Schema". The table lists various SQL commands executed by the user SYSTEM, including creating tables, inserting data, and creating indexes. The bottom status bar shows the system time as 12:57 on 02-04-2021.
